The Do Not Call scheme is really the best scheme so far and as a resident of NJ I would appreciate it if you do not dilute it. I used to get unsolicited calls from telemarketers at all points of time during the day and even as late as 10 pm. It used to be quite frustrating to sit down to relax or have dinner and hear the phone ring incessantly. Please do not dilute NJ's DO NOT CALL laws. I am sure consumer buying does not reduce just because people do not get unsolicited calls.
